⚠ This version only works with Wildfly 29!
To fully leverage the capabilities of our latest software release (version 7.12.0), it is imperative to update to the latest WildFly version (WildFly 29.0.1). This upgrade is essential to ensure seamless compatibility and maximize the performance and security enhancements delivered by our software. Thank you for your prompt attention to this important update.

⚠ Database update instructions
For all updates coming from >= 7.10.2: we switched to automated database management - no manual database changes needed anymore.

Coming from older Versions: make sure to update your database with the shipped SQL scripts to 7.10.2 before starting your application server with the newest Version.
